Takara Group's Sustainability

Disclosures based on the TCFD framework TCFD

The Takara Group positions the harmonization of its business activities with global environmental preservation as one of its key challenges, and is actively implementing these initiatives. Recognizing that climate change is an important issue that has an impact on the sustainability of business, the Group supports the recommendations of the Task Force on Climate-related Financial Disclosures (TCFD) and continues to assess and respond to risks and opportunities related to climate change in accordance with the TCFD framework, disclose relevant information, and engage in dialogue with stakeholders. The Group has also joined the TCFD Consortium, where companies and financial institutions which support the TCFD recommendations work together to move ahead with initiatives, and discuss effective information disclosure of companies and initiatives to lead to right investment decisions by financial institutions, etc.

Governance

The Takara Group has established the Takara Group Sustainability Promotion Committee chaired by the Representative Director and President of Takara Holdings, under the supervision of the Board of Directors. The committee assesses the risks and opportunities that climate change poses to business, formulates strategies, and discusses targets, etc. In addition, as a subordinate organization of the Takara Group Sustainability Promotion Committee, the Executive Office of Sustainability Promotion Committee has been established to deal with climate change issues. The Executive Office of Sustainability Promotion Committee sets out and implements specific activities for each Group company based on decisions made by the Takara Group Sustainability Promotion Committee.

These sustainability initiatives, including climate change issues, are reported to the Board of Directors by the Takara Group Sustainability Promotion Committee.

Risk Management

The Takara Group identified risks and opportunities for Takara Shuzo Co., Ltd. and Takara Shuzo International Co., Ltd. (Overseas Alcoholic Beverages Business, Japanese Food Wholesale Business in overseas markets). As a process to identify them, we extracted potential risks and opportunities for transition risks and physical risks by referring to experts' opinions and published reports, and selected risks and opportunities that are expected to have a significant impact over the short-, medium-, and long-term period, taking into account the likelihood and magnitude of impact. The Takara Group Sustainability Promotion Committee reports to the Board of Directors on the details of identified risks and opportunities and the countermeasures.

Strategy and Scenario Analysis

In addition to Takara Shuzo Co., Ltd. in fiscal year 2021 and the Overseas Alcoholic Beverages Business of Takara Shuzo International Co., Ltd. in fiscal year 2022, the Takara Group expanded its scope to include Japanese Food Wholesale Business in overseas market of Takara Shuzo International Co., Ltd. in fiscal year 2023, and conducted a scenario analysis to understand the impact of climate change risks and opportunities on the business and consider countermeasures to be taken.

In this analysis, we referred to RCP 2.6 (below 2°C scenario) and RCP 8.5 (4°C scenario) based on AR5 of IPCC (Intergovernmental Panel on Climate Change) for physical risks, and APS scenario (below 2°C scenario), SDS scenario (below 2°C scenario), and NZE2050 scenario (1.5°C scenario) based on WEO of IEA (International Energy Agency) for transition risks to analyze and examine the impact of climate change.

As the temperature rise is limited to less than 2°C and strict environmental regulations are introduced to achieve carbon neutrality, the adoption of carbon tax will force up production costs, operating costs, storage costs, and the prices of containers and packaging materials, causing an impact on our business.

As the temperature rise will be about 4°C, damage due to storm surges and floods caused by sea level rise will have a significant impact on our operations. In addition, it has been found that the amount of yield of crops, which are raw materials, is greatly affected by rising temperatures.

We think that the reduction of operating costs through promotion of energy conservation efforts such as the introduction of energy-saving equipment as well as increased demand for ethical consumption and eco-friendly products will become business opportunities for us.

Going forward, we will continue to review risks and opportunities and give shape to measures to be taken, and reflect them in our medium- to long-term management strategies, thereby striving to improve the resilience of our strategies.

Target companies: Takara Shuzo Co., Ltd.

Overseas Alcoholic Beverages Business (Takara Sake USA Inc., Takara Shuzo Foods Co., Ltd., and The Tomatin Distillery Co. Ltd)
Japanese Food Wholesale Business in overseas markets (Mutual Trading Co., Inc., Tazaki Foods Limited, FOODEX S.A.S., Cominport Distribución S.L., and Nippon Food Supplies Company Pty Ltd)

Business Risks and Opportunities due to Climate Change in Domestic Business

Indicators and Targets

The Takara Group has set CO₂ emissions reduction targets in its Takara Group Sustainability Vision. Takara Shuzo Co., Ltd. and the Takara Shuzo International Group have set CO2 emissions targets in Scope 1 and Scope 2 in total for their production sites.

■ Targets and Progress for FY2024

Scope	Indicators and targets	FY2024 results	
Takara Shuzo + Takara Shuzo International Group			
Takara Shuzo (Distribution)	[FY2030] Achieve a 10% reduction in CO ₂ emission intensity in transportation (CO ₂ emissions per unit of shipment), compared with FY2018		
Takara Bio Group	[FY2025] Achieve a 50% reduction in CO ₂ emission intensity (CO ₂ emissions per unit of net sales), compared with FY2018	Compared to FY2018: 14% reduction	
Entire Group	[FY2050] Net zero CO ₂ emissions	_	

■ Scope 1 and Scope 2 Total CO₂ Emissions of Takara Shuzo Co., Ltd. and Takara Shuzo International Group

* Production sites of Takara Shuzo Co., Ltd. and Takara Shuzo International Group

■ GHG Emissions of Takara Holdings Inc., Takara Shuzo Co., Ltd. and the Overseas Alcoholic Beverages Business of Takara Shuzo International Co., Ltd. in FY2024

Takara Holdings Inc., Takara Shuzo Co., Ltd. and the Overseas Alcoholic Beverages Business of Takara Shuzo International Co., Ltd. calculate greenhouse gas (GHG) emissions in Scope 1, Scope 2, and Scope 3. Going forward, we will work to grasp our Group-wide GHG emissions.

		Unit: t-CO2e
	FY2023	FY2024
Scope1+Scope2 market-based	84,540	83,850
Scope1	63,932	60,336
Scope2 market-based	20,609	23,514

		Category	FY2023	FY2024	Calculation method
Scope3			794,129	775,070	
	Category 1	Purchased goods and services	587,638	572,109	Calculated for procured raw materials, containers, and packaging materials
	Category 2	Capital goods	16,156	20,368	Calculated for purchased facilities and instruments
	Category 3	Fuel- and energy-related activities not included in Scope 1 and 2	18,205	17,898	Calculated based on the amount of fuel and electricity used
Upstream	Category 4	Upstream transportation and distribution	102,602	99,287	Calculated for the logistics of procured raw materials, containers, and packaging materials
	Category 5	Waste generated in operations	3,390	3,627	Calculated for waste weight and disposal cost
	Category 6	Business travel	260	263	Calculated for employee business travels
	Category 7	Employee commuting	669	678	Calculated for employee commuting
	Category 8	Upstream leased assets	_	_	Not included in the calculation
	Category 9	Downstream transportation and distribution	11,058	10,513	Calculated for shipping logistics
	Category 10	Processing of sold products	_	-	Not included in the calculation
	Category 11	Use of sold products	_	_	Not included in the calculation
Downstream	Category 12	End-of-life treatment of sold products	49,057	45,901	Calculated for waste from products sold
	Category 13	Downstream leased assets	5,094	4,426	Calculated for instruments leased to outside parties
	Category 14	Franchises	_	-	Not included in the calculation
	Category 15	Investments	_	_	Not included in the calculation
Scope1+Scope2+Scope3			878,669	858,920	

Scope 1: Direct emissions of greenhouse gases by the business itself (fuel combustion, industrial processes)
Scope 2: Indirect emissions associated with the use of electricity, heat, and steam supplied by other companies
Scope 3: Indirect emissions other than Scope 1 and Scope 2 (emissions by other companies related to the activities of the business)
*Target companies of the Overseas Alcoholic Beverages Business of Takara Shuzo International Co., Ltd.: Takara Sake USA Inc., Takara Shuzo Foods Co., Ltd., and The Tomatin Distillery Co. Ltd
*GHG emission results are subject to change due to third-party verification, etc.
